Western, Evan T.
Wright, Kevin S.

A Note of Thanks: The ABHP appreciates the help of the certified health physicists (CHPs) who have donated many hours of their time to develop and grade the exams and to serve as proctors. Without their help, the examinations could not have taken place.

ABHP Exam Application Reminder

Stop procrastinating! Applications to take either part of the 2016 ABHP examination must be filed with the Secretariat and postmarked **no later than 15 January 2016**.

Application information may be found [on the AAHP website](#).

Additional Reminders

- Nominations for the Joyce P. Davis Award should be made on or before 1 March 2016.
- Nominations for the William McAdams Award should be made on or before 2 March 2016.

Information about these awards can be found on the [Academy website](#).

Code of Ethics for the Members of the Health Physics Society

These principles are intended to aid members of the Health Physics Society, individually and collectively, in maintaining a professional level of ethical conduct. They are intended as guidelines by which members may determine the propriety of their conduct in relationships with employers, coworkers, clients, governmental agencies, members of other professions, and the public.

- Members of the Society shall give support to the objectives of the Health Physics Society.
- Members shall strive to improve their professional knowledge and skill.
- Each member shall be a judge of his/her competence and will not undertake any assignment beyond his/her abilities.
- All relations with employers, coworkers, clients, governmental agencies, and the general public shall be based upon and shall reflect the highest standard of integrity and fairness.
- Members shall never compromise public welfare and safety in favor of an employer's interest.
- No employment or consultation shall be undertaken which is contrary to law or the public welfare.
- Members will gladly accept every opportunity to increase public understanding of radiation protection and the objectives of the Society.
- Professional statements made by members shall have sound scientific basis. Sensational and unwarranted statements of others concerning radiation and radiation protection shall be corrected, when practical.
- Members shall protect the sources of confidential communications, provided that such protection is not itself unethical or illegal.
