

## Corner

Nancy M. Daugherty

The "CHP Corner" is used to provide timely notification of activities and schedules of special interest to certified health physicists (CHPs) and other HPs who might pursue certification. The semi-annual *CHP News* newsletter will continue to include more lengthy discussions of substantive certification issues. Please address any contributions for either the "CHP Corner" or the *CHP News* to:

Nancy M. Daugherty, CHP  
Editor, *CHP News*  
511 N. Bermont  
Lafayette, CO 80026  
303-966-8533; FAX: 303-966-8575

### Recertification Packages

Recertification packages have been mailed to those CHPs whose certification must be renewed in 1993. The package includes instructions and forms for renewal, as well as a list of courses for the years 1990 through 1993 that have been approved for recertification credit. Any CHPs having questions concerning recertification materials should contact Nancy Johnson at the HPS Secretariat, 703-790-1745.

### AAHP Courses

You may have noticed that there are three eight-hour AAHP courses offered in the program for the HPS 38th Annual Meeting in Atlanta this year. The offerings include: 1) Implementation of the Revised 10CFR20, Charleen T. Raddatz, instructor; 2) Internal Exposure Assessment Programs for the Evaluation of the Adequacy of Internal Radiation, Kenneth W. Skrable, instructor; and 3) Fundamentals of Industrial Hygiene, Peter Collopy, instructor. The descriptions of the courses given in the program help to illustrate the value of the longer eight-hour format. The first and third courses include significant time spent in student workshops applying what had been covered in the lecture. The second course includes a demonstration disk of bioassay and internal dosimetry code, as well as excerpts from the users manual.

To suggest future course topics, contact:

David D. Snellings, Chair  
AAHP Continuing Education Committee
