Power Reactor Specialty Bids You Adieu

Eugene M. Rollins, Chair, Power Reactor Panel

We have come a long way since October of 1992 when we began work on this year's Power Reactor Exam. As most of you know, 1993 was the last year that the Power Reactor Exam was offered. The twelve Panel members who worked many long hours on the 1993 exam produced a truly outstanding product. Twenty-one candidates elected to take the Power Reactor Exam last July, and the Panel is hard at work grading their efforts.

I would like to express my thanks to the Panel Members who produced and graded the 1993 Power Reactor Exam. The Panel Members included Eric Bickel, Sarah Coy, Jim Tarpinian, Phillip Gianutsos, Daryl Greene, Ralph Kenning, Don Mayer, Jayalakshima Ramanuja, Scott Schofield, Mark Simpson and David Smith. A special thanks goes out to Dick Warnock, Eric Goldin and Steve Garry for their help in grading the exams.

Also, I would like to thank those Power Reactor Panel Members from past years who gave so generously of their time and talent.

Being a Member of a Certification Exam Panel has been a rewarding and educational experience for me over the last four years. I would encourage all CHPs to become involved in the process. Working with an exam panel will provide insight into areas that you probably do not encounter in your daily responsibilities. In addition, you will develop valuable contacts with other CHPs in the profession. As a bonus, beginning January 1994, you will receive up to twelve continuing education credits per year (32 per recertification period) for Panel participation.

JOIN THE CERTIFICATION PROCESS!!

1994 Certification Exam

Applications for the 1994 Certification Exam must be post-marked no later than January 15, 1994.
